BLURB

is published monthly by, and for, the members of **The PHIL-MONT MOBILE RADIO CLUB, INC.** whose purpose is to promote Amateur Radio in general, and Mobile Radio in particular. Copying and quoting is permitted with a credit line. We gladly exchange publications with other amateur radio clubs; requests should be sent to the Editor. **BLURB** subscriptions are available to non-members for \$10.00 addressed to the Treasurer. The club meets at 7:30 PM on the first non-holiday WEDNESDAY of every month at **The Franklin Institute Science Museum**, Benjamin Franklin Parkway at 20th Street, Philadelphia. Enter from Winter Street, or parking garage.

ALL VISITORS ARE WELCOME!

Amateur Radio License Examinations - the first non-holiday Thursday of every month at The Franklin Institute Science Museum—doors close at 6:30 PM-SHARP!

CLUB INFORMATION

24-Hour Information Number at W3TKQ -(215) 448-1139
Repeater frequencies: 147.03 Hz (Roxboro input requires no PL)

PL required for off-site receiver (OSR) access:

Bucks County 131.8 Hz

Center City 103.5 Hz

Lansdale 114.8 Hz

444.80 MHz (186.2 Hz PL)

Simplex frequency: 147.51 MHz

Packet BBS frequency at W3TKQ: 144.99 MHz

Mailing Address: P.O. Box 88, Abington, PA 19001

STATIONS

W3QV - 147.03 MHz. Repeater - 8200 Ridge Avenue, Philadelphia, PA - Trustee W3BBB

HELP PHIL-MONT

Are you planning to join the ARRL or renew your current membership?
Remember: The ARRL is more than just a magazine subscription!

Help Phil-Mont by joining or renewing through the club.

Contact W3IIN, for the details.

THE BOLD MRS. GOLD

How BOLD is Mrs. GOLD? Will GOLD be BOLD again? Or will GOLD be GOLD? Really Mrs. Gold, I know you're not very BOLD. But I'm afraid that until the Editor buys a better scanner or I buy an IBM, GOLD may always be BOLD. Could you possibly change your name to Irving?

DIRECTORY UPDATE

FINAL CALL (Honest for real) ... if you have any changes for the 1993 PMRC Directory, or want to make any changes in your information (Birthdays, etc.) let me know NOW! The 1993 Directory will be mailed with the April BLURB.

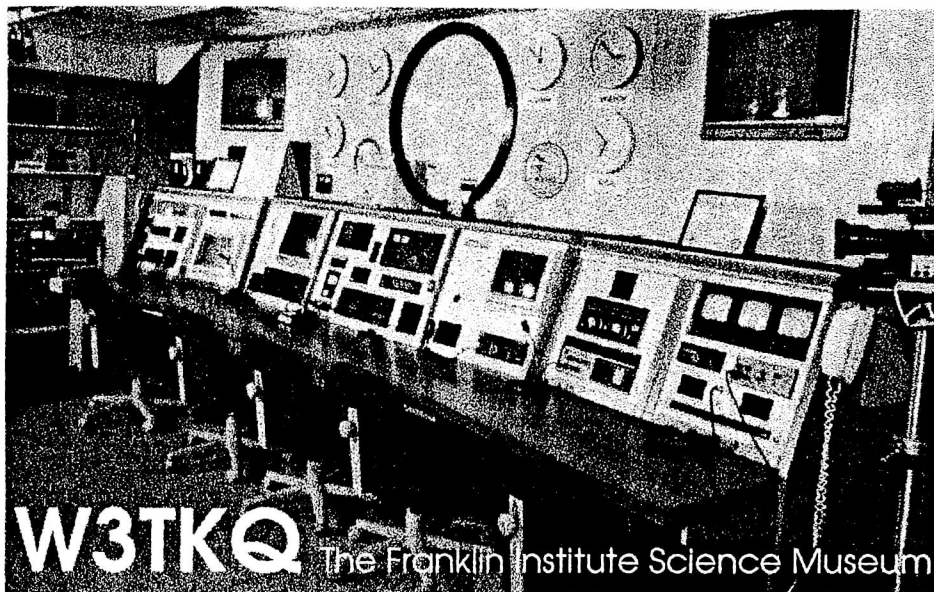

Sneak preview of our new QSL

Station by Phil-Mont

This major exhibit has been in operation since 1952. Sponsored since 1962 by The Phil-Mont Mobile Radio Club, Inc., this recently remodeled station has been seen on the cover of QST magazine, and by more than 120,000 visitors since it was formally rededicated on October 23, 1991 by Guglielmo Marconi's daughter, Mrs. Gioia Marconi Braga.

The seven console positions shown left to right are:

- 1- Dedicated 2 meter intercom for the club's local repeater, plus Kenwood 144MHz & 220 MHz. A Drake R8 receiver is mounted on an outtrigger.
- 2- IBM computer and MFJ TNC running Alinco 1200 dedicated NTS system for visitors and locals.
- 3- Satellite tracking station: ICOM 970 and Tandy computer running "Quick Track" and "Kansas City Tracker" programs.
- 4- Kenwood 950 with PK232, TL922, monitor scope and Rupp SWR/power meter to a Mosley PRO67 10-40m beam.
- 5- Guest operating position: Kenwood TS450, computer and KAM all-mode TNC for HF/VHF packet.
- 6- Ten-Tec Omni VI with tuner to a Cushcraft R7 antenna.
- 7- ATV: WR450 transceiver, local monitors, 2m intercom, video output terminal and tripod-mounted camera.

The
Musser
Choices
Forum

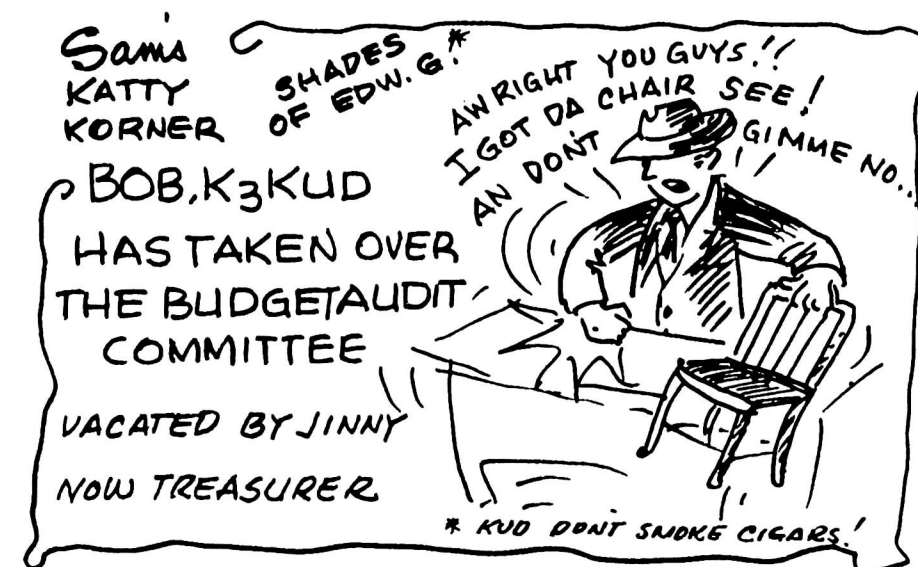

Has it ever occurred to you that when your working the "03" repeater, or any repeater for that matter, you are being heard over literally thousands of square miles? Not only by other amateurs, but by people listening to the amateur frequencies, just for the fun of it, or because they may be striving for a ham ticket of their own.

It is important to consider that what these people hear can have an effect on the repeater you are working, and ham radio in general. People will form opinions as they listen to

your transmissions. If they are prospective hams they may pattern themselves after the operation they hear, good or bad.

Let's keep in mind that we have a big audience out there, and make the best impression you can as a concerned amateur.

Just a reminder, we will be holding our March meeting in Choices Forum again: This new location is working out great. Don't come by yourself, bring a friend!

HAM TALK

Gil Gilpin, W3SRU (Past President PMRC)

Amateur Radio has a proud history of emergency communications in all types of disasters. Over the next several months the basic operations of the various formally organized emergency response organizations, many with whom I have personally operated, will be discussed. Following are the emergency organizations activated during the recent Hurricane Andrew disaster.

ARES - Amateur Radio Emergency Service

An Amateur Radio Relay League (ARRL) sponsored organization consisting of ARES nets throughout the country prepared for Emergency operations.

RACES - Radio Amateur Civil Emergency Service

An FCC regulated emergency service that operates under state and local emergency management agencies (formerly civil defense).

NDMS - National Disaster Medical System

Operates under the U.S. Public Health Service and consists of military, medical and amateur radio personnel. The system is designed for handling casualties in major disasters.

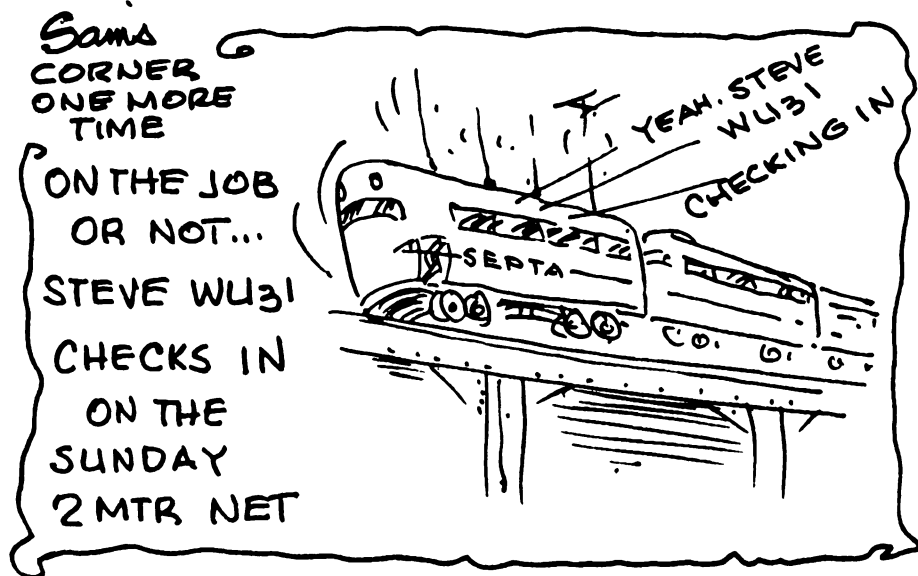

NTS - National Traffic System

An sponsored national network trained to handle health and welfare type message traffic in and out of disaster areas.

MARS - Military Amateur Radio Service

Army, Navy, Marines, and Air Force organizations consisting of Amateur Radio stations operating on military bases and MARS affiliated amateur radio operators for message handling and emergency operations.

The Loggerhead Ham News, Sanibel Island, Florida

MINUTES

FEBRUARY GENERAL MEETING

Steve Hoch, WU3I, Secretary

KB3IV opened the 519th general meeting at 7:49 p.m.

W3IIN reported on the state of the treasury (looking fit and tanned, her, not the treasury). Income exceeded expenses this month, and the treasury is in fine shape. It was reported that those who had not paid their dues by the end of February would not be in the directory. On the membership front we are behind in renewals.

W3IIM on the *Blurb*: thanked the new folding committee WB3KOH and KOJ, and again apologized for the late delivery of February's issue due to the Florida trip.

KB3IV for net controls: thanks to AA2FU and AA3CH for joining the 75m net control rotation. More are needed to fill out 2M; contact Ed.

N3KGG on welcoming: announced that we had 38 members and 7 guests. The guests were: Bob, N3LVT; Dottie, K3YPH; Tom; Don, N3NJI; Vic, KD3DE; Marion Blum; and Mike, N3OAA.

KD4PWG having been recently appointed to the newly formed 50-50 committee, had N3NJI draw the winning ticket. The winner was Bob KE3CZ who donated his winnings to the W3TKQ operating fund.

KA3EBC for special events: reported that the following events were upcoming in 1993.

3/28 THE SUPER CITIES WALK BENEFITING THE MS SOCIETY

6/6 THE CORESTATES BIKE RACE

7/18 CANCER SOCIETY BIKATHON PHILADELPHIA TO ATLANTIC CITY

AK2I for W3TKQ: reported that there was \$200 in the fund; need \$800 for the goal. New QSL cards are in the works, with photos taken by N3IEI. Jake acknowledged the donation for an 80286 IBM clone to the station by AA3BB. Included in this system are an EGA monitor and card, a math coprocessor chip and two 40 meg hard drives. Along with the computer there was a number of accessories and books. Many thanks to Bill AA3BB for the generous donation. Jake reported on a contact with Fred Brewer from NASA about STS-56 on 3/27/93. The big question was "Can we be on the air at 6:30 am?" Of course there was only one possible answer, and Jake gave it. The phrases used in the conversation were: "At the top of the heap" and "In the running," so confidence is high at this point. With input from Jeff Bechtel of The Franklin Institute, arrangements have been made to patch the audio and video down to the Mussers Choices Forum through the amazing video display there. The Westtown School in Westtown, Pa Chester County, will be attending as the sponsoring school, thanks to Barry, K3EUI.

Jake then introduced Jeff Bechtel of The Franklin Institute who explained the Mussers Choices Forum Video Display system, and showed a tape about packet radio which was followed by a question and answer session by Vic, KD3DE. Thanks to Paul N3GMH for an entertaining program.

"DON'T TAILGATE... WAIT"—for the courtesy chime!

MINUTES

FEBRUARY DIRECTORS' MEETING

Steve Hoch, WU3I, Secretary

KB3IV opened the meeting at C H I Institute in Southampton at 8:55 P.M. following a tour of the school's facilities by the Director Glenn Murray. Many thanks to W3IIM & N for arranging for the accommodations.

W3IIN reported that the state of the treasury was healthy. 90% of the past members have renewed their membership, and dues are still coming in. There are 33 still outstanding (you know who you are). The audit committee report was presented and recommended for approval. N3FVI made the motion to accept, W3RM seconded the motion; there were no dissenting votes. WU3I presented \$90 to W3IIN representing the sale of the (very) large serial printer from the back room of W3TKQ, and the sale of the antennas and rotor from the estate removed in Cherry Hill (the tower is still available). These funds to go to the W3TKQ Maintenance Fund.

W3IIN reported on the membership committee. Jinny welcomed the help of AA3BB

who will be taking over the membership duties with W3IIN assisting. There were five new applicants for membership to vote on this month. They are: K3EUI, Barry Feerman; N3LMX, John Eckert III; N2MAW, Lawrence Potts; N3NLR, Joshua Feerman; and N3NRU, Ted Braverman. W3RM made the motion to accept the applicants, K3KUD seconded there were no dissenting votes. There will be three published for March.

KB3IV for net controls reported that three new volunteers for 2M nets will round out the schedule. The members were N3NRU, N3KGG and W3GQD. The new format for the nets was debuted at the board meeting (finally), soon to be in the hands of the net control operators.

W3IIM for the *Blurb* committee: Kudos to WB3KOJ and KOH for stamp placement. The new QSL cards for W3TKQ are at the printer; back in about six weeks. March *Blurb* will be the last to those who have not paid their dues. The directory will be in the April *Blurb*.

W3BBB for the repeater committee: Jim reported on a letter from Gene Pressler, W3ZXB, brought before the Board in November, on the topic of frequency coordination with the folks at TPARC. The letter is a request for a contribution to the coordinating association to get things going again. The Board agreed to invite Gene to a meeting to present the facts to the club.

Attending this meeting were W3IIM, W3IIN, W3GQD, Jackie Chedeville, N3DHI, W3IRS, KB3IV, AA3BB, W3RM, W3BBB, N3FVI, WU3I, K3KUD, and K3GBA.

W3RM made the motion to adjourn at 10:10 P.M. AA3BB seconded there were no dissenting votes.

THE W3TKQ REPORT

by
Jake Kovalchek,
AK2I

For the information of all those interested in the possible involvement of W3TKQ and the SAREX mission of the NASA Space program, it was learned that STS-56 has been delayed until April 1993 because of a problem with a high pressure turbine pump in the main engine of STS-55. Please keep your fingers crossed for Phil-Mont's involvement.

A search is underway for a center map for the main console of the station. I have recently learned that it is unnecessary for us to provide an exact size of the map we would like to have in that area, since the company willing to do the work can reproduce any size map for us, in any size that's needed, using a reproduction process called "Dura Trans" made from heavy plastic and brilliantly colored.

This is a perfect opportunity for the unusual and the unique to prevail, and I'm going to take my time for that perfect photo in that area, whether it's a map or a photograph it will be unique. Anyway, my thanks to Sam, K3GBA, for all his efforts in trying to procure for us that specific map.

The following members have supported the call for additional funding of our radio station W3TKQ, and my thanks to each of them for, in some cases, I realize it meant sacrifice on their part: KD2CR, W3SGR, N3GMH, N3MDQ, N3KGG, N2JFF, AA3BB, KB3CZ, N3WW, N3AXJ, WU3I, WB3JUA, WB3KOJ, W3PCX, N3EKR, N3MDQ, WA3YVB, WO3D, K3LJC, KE3CZ, K3YPH, and Sam Kunceovich. My thanks to all for their contributions which total \$353!

 Palomar TX50 3-30MHz mobile amp 3w in, 50 w out, paperwork 50

Left Over From February for the benefit of W3TKQ fund:
 3-section crankup tower with 15 feet of 1½ inch galvanized pipe for total height of 35 feet 50

Contact Steve, WU3I at (215) 535-8061
 All prices open to some negotiation.

It pays to advertise in your *Blurb*. The equipment listed last month went fast with a call from Chase, Maryland about the tower. Unfortunately the person could not get zoning permission to erect the tower so it remains. So advertise here, you never know who will read it, or where!

CLUB INFORMATION
 24 Hour Information Number at W3TKQ
(215) 448-1139

94TH MONTHLY VE SESSION STATISTICS FEBRUARY

27 candidates pass 26 elements

March General Meeting Program

SAREX - Satellite Amateur Radio Experiment - An attempt on the part of NASA to peak the interest of our school children of today in the science of space travel for tomorrow. This video shows the personal involvement of the school children and how important they are to the mission statement of the program itself. If Phil-Mont is lucky enough to be chosen as a participant we will also discuss how involved we will become, with what school affiliation and who in our organization will help to guide the children in their exciting contact with a satellite 600 to 900 miles above the earth from W3TKQ.
